MEMORANDUM FOR: Chairman, Subcommittee for Automated Information System Security.

SUBJECT: Review of 25 May Draft OMB Guidance.

Reference: Guidance for Preparation and Submission of Security Plans for Federal Computer Systems Containing Sensitive Information, Draft, dated 25 May, 1988.

1. I have reviewed the draft OMB guidance on implementation of the Computer Security Act of 1987 (PL-100-235). The Agency is exempt from the provisions of the Act, under Section 3,(3),(A) of the Act. That Section of the Act specifically excludes systems covered under Section 3502 of title 44, U.S.C. Also, Intelligence Systems are excluded under Section 2315 of title 10, U.S.C.

2. Additionally, under the applicability section of the guidance, the Act does not apply to computer systems continuously protected by standards used to secure classified information. All Agency Systems which process sensitive information are so protected.

3. I believe that it would be inappropriate to comment on the OMB guidance which is not applicable to the Agency.
